Background Summary:

Dr. Kerry V. Rifkin is the Medical Director and peripheral vascular supervising physician for Neurodiagnostic Technologies.

Dr. Rifkin is a leader in vascular surgery with more than 25 years of experience combined with a world-class education. As medical director of Neurodiagnostic Technologies, he supervises a certified technologist who performs carotid, arterial, and venous imaging and Doppler studies. Dr. Rifkin enjoys treating the most complex vascular issues, including improving circulation to the brain, arms, and legs. He is an expert in arterial diseases and individualized medical and cosmetic venous treatments.

On a personal note, Dr. Rifkin is an accomplished trumpet player who performs with his own jazz combo.
